Profile

Years of experience as a sound technician and cello instructor have given me a solid foundation in accuracy, problem-solving under pressure, and working in high-stakes situations. I now apply the same level of attention to detail to software development.

Employment History

Media Production, Freelance, Lisbon

Substitute Teacher – Cello, Orquestra de Câmara de Lisboa, Lisbon

MAY 2026 — JUL 2026

Managed a cello section of the junior and children’s group for end-of-year activities/concerts and preparation for the following school year.

Sound Technician, Áudio Infinito, Portugal

AUG 2024 — FEB 2026

Regular sound technician at the Union of Portuguese-Speaking Capital Cities (UCCLA) and the House of Latin America (CAL), along with participation in festivals and various events.

Sound Technician / Warehouse Manager, Void Creations, Lisbon

FEB 2024 — AUG 2024

FOH for shows at the Maxime hotel, warehouse manager and contracted sound technician between June and August.

Audio Operator, Medialivre, Lisbon

APR 2024

Managed the live broadcast audio for CMTV in the control room and assisted in the training of current NOW presenters.

Education

Software Engineering & AI, CodeForAll_, Lisbon

FEB 2026 — AUG 2026

During this programme I have developed hands-on experience with Java, JavaScript, HTML, CSS, Apache Tomcat, and Apache Maven, building real projects that have strengthened my understanding of both backend and frontend development. I am currently expanding my skills with Spring and will soon be working with SQL.

Degree in Music Technologies, Music School of Lisbon, Lisbon

SEPT 2021 — NOV 2025

Activities and groups: Recording, mixing and mastering of Orchestras, Chamber music ensembles and Jazz ensembles.

Soft Skills

- Live performance communication
- Independent learner mid-career transition
- Technical troubleshooting
- Multi-role coordination
- Cross-domain adaptability
